

ABOUT

This ingenious inspection camera combines the great length advantage of the Telescopic Pole, together with a small and discreet camera. This combination allows you to use a wireless camera to record objects up to 5.6 metres away. The camera connects wirelessly to a handheld full-colour monitor; footage can then be recorded via the micro SD card provided.

FEATURES

- **Recording Time Limit:** 2 Hours
- **Charge Time:** 3 Hours
- **Viewing angle:** 360 deg (based on Gooseneck material)
- **Recording Distance:** Up to 5.6 metres
