

ABOUT

The One Tool Solution to cable guiding. One of Super Rod's latest innovations! No Rods - No Wires - No Tape - No Magnets. Why buy several tools when you can use just one.

Users can drill a cavity wall in the normal way, connect the cable and pull it through the cavity. A brilliant time and money saving innovation and typical of the innovative products available in the Super Rod range.

APPLICATION

Simply drill through the wall in the required place, bare a short length of wire at the end of the cable to be pulled. Thread through the specially designed hole in the end of the drill bit or detach the SDS machine and thread through the hole in the shank end and pull the cable through.

SPECIFICATION

Product Name	10 mm Quick Drill
Item Code	SRQD10
Dimensions	10 mm x 400 mm
Weight	259 g

Especially useful when there is rubble or insulation material present in the cavity as the drill bit is left in place whilst the cable is attached.

Features & Benefits:

- Specially designed hole in each end of the bit

Applications:

Routing of Cables, i.e. Electrical, TV, Satellite, Telephone, Alarm, Data, Speaker etc
