

Series 7400 VDE Kraffform adjustable torque handle (0.3-3.5 Nm), art. no. 7440 VDE
x 0.3-1.2 N m
Kraffform Kompakt VDE

EAN:		Size:	200x70x40 mm
Part number:	05074752001	Weight:	220 g
Article number:	7400 VDE	Country of origin:	CZ
		Customs tariff number:	82054000

- Adjustable Kraffform VDE torque holder
- Adjustable torque from 0.3-1.2
- Distinct audible and perceivable excess load signal when the pre-set torque value is reached
- Suitable for Kraffform Kompakt VDE blades
- Rapid exchange of the interchangeable blades

Torque VDE holder for safe work up to 1,000 volts. Adjustable torque value from 0.3-1.2 Nm. Distinct audible and perceivable excess load signal when the pre-set torque value is reached. Unlimited manual loosening torque. For Kraffform Kompakt VDE blades: the handle/interchangeable blade system allows a rapid exchange of the blade and thereby diverse applications.

Individually tested

Kraftform VDE adjustable torque handle

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

Kraftform VDE adjustable torque handle

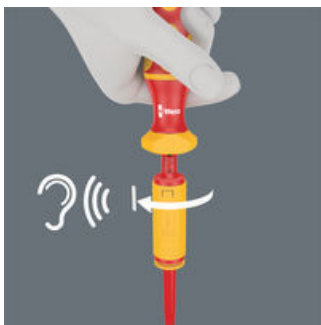

Simple setting of the required torque by hand.

Kraftform VDE adjustable torque handle

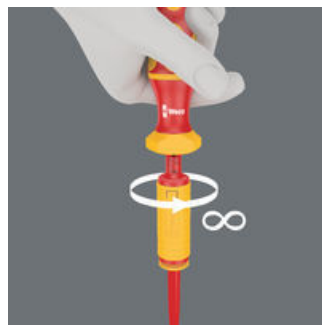

Easy-to-read scale value. Measurement accuracy is $\pm 6\%$ in accordance with the standard EN ISO 6789.

Excess-load signal

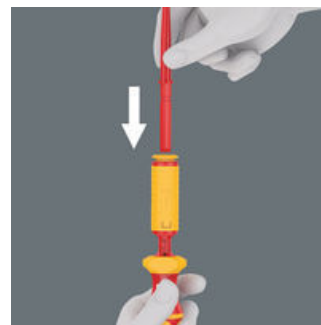

Distinctly audible and noticeable excess-load signal when the pre-set torque is reached.

Unlimited loosening torque

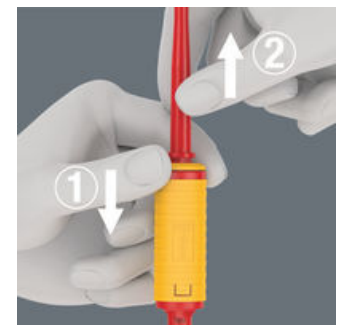

Unlimited torque for loosening seized screws.

Inserting the blade

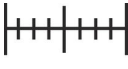

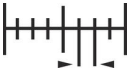

According to the job, the insulated inter-changeable blade with the required tipstyle, or a switch cabinet key is inserted into the clamping mechanism.

Taking out the blade

By pulling and holding down the clamping sleeve the interchangeable screwdriver blade, or the switch cabinet key, is unlocked and can easily be taken out of the handle.
